## Step 7:

Buy or transfer BNB to your newly created wallet.

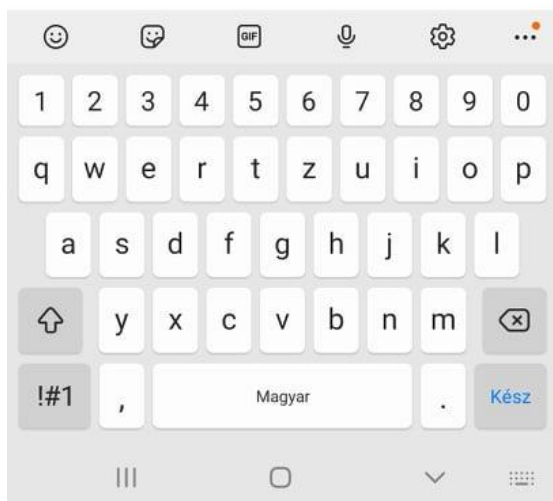

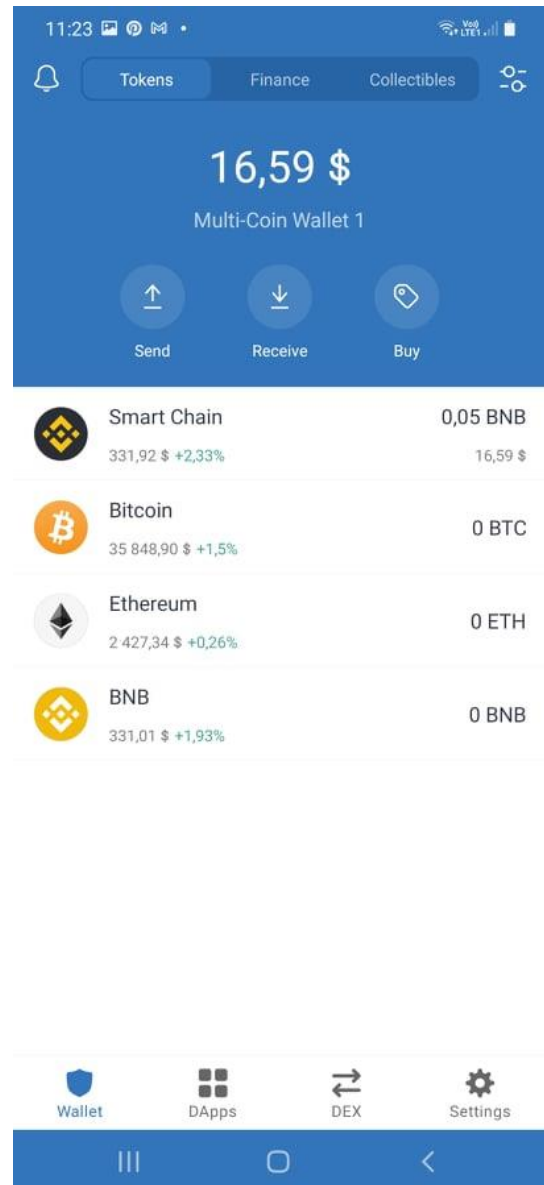

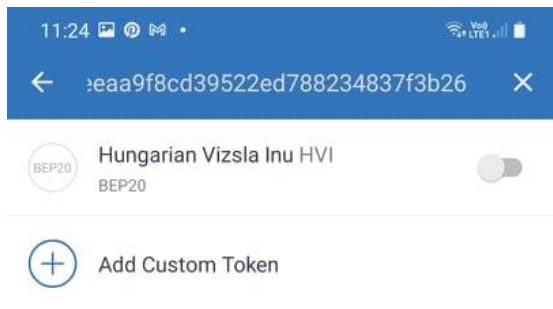

## Step 8:

After the purchase/transfer, choose DEX at the bottom of the page. Choose BNB and exchange it to Binance Smart Chain. **IMPORTANT!** Never exchange 100% of your balance, because there's a minimal transaction fee, which will be subtracted from BNB.

## Step 15:

On the right from “Exchange” you will find “Settings”. Click on it, then change the Slippage tolerance to 15%. In the future this can change, so in case of an accidental error this value should be modified first.

## Step 16:

By clicking on “Select Token” we have to type (paste) the Contract Address again, by doing that the PancakeSwap app will find the Vizsla Token. Then click “ADD” which is in blue.

**Contract Address:**

## Step 19:

If everything was done right you can finalize the transaction on this page, after that you can see the amount of HVI you have in your wallet.

## Step 20:

After a successful purchase you can see the amount of HUNGARIAN VIZSLA INU you have. You cannot yet see the value of the HVI, you can only check it in the PancakeSwap App.
